

THE UNIVERSITY OF TEXAS AT DALLAS  
School of Economic, Political and Policy Sciences

# INTERNATIONAL BANKING AND MONETARY SYSTEMS GRADUATE CERTIFICATE

## DID YOU KNOW?

- By 2030, **MORE THAN** 1/3 of the jobs in capital markets will be lost to technology as Artificial Intelligence supplants humans (survey by PricewaterhouseCooper's LLP)
- JP Morgan Chase now makes coding literacy a **requirement**. The Wall Street Journal reports other big banks are launching their own coding training programs
- **Forget Wall Street lingo!** According to Bloomberg, the language Citigroup wants its incoming investment bank analysts to know is Python

## TOOL UP WITH OUR NEW STEM- DESIGNATED MASTERS CERTIFICATE!

- **15** credit hours, **3** broad competencies, **1** academic year
- Open to every student in the Economics MS Program at UTD
- If you are already enrolled in the Master's Fast Track, you can begin the coursework as you finish your undergraduate degree
- Open to non-degree-seeking students and non-econ majors
  - Ideal for professionals looking to retool or for students in other majors looking for careers in banking and finance

LEARN PYTHON, R,  
AND STATA

## FIVE COURSES

- **ECON 5322:** Macroeconomic Theory for Applications
- **ECON 5397:** Forecasting for Economics and Business
- **ECON 6305:** Mathematical Economics
- **ECON 6306:** Applied Econometrics
- **ECON 6357:** Monetary Economics and International Banking
